Joseph Paul Gloria, Registrar of Voters  
Lorena Portillo, Assistant Registrar of Voters

April 19, 2021

## RESULTS OF CANVASS OF THE PRIMARY ELECTION IN THE CITY OF BOULDER CITY APRIL 6, 2021

The results of the April 6, 2021 Primary Election were canvassed comparing the computer printout of ballots counted and the results thereof with the official ballot statements for the 11 precincts used in the election.

There were no processing errors in the 4,111 ballots cast in the 11 precincts located in Boulder City. Sixty-three provisional ballots were cast and all were confirmed as eligible to be counted. There were no tabulation errors to report.

Therefore, as the duly appointed Registrar of Voters of Clark County, Nevada, I do hereby approve the canvassed results of the Primary Election for certification.

  
Joseph P. Gloria  
Registrar of Voters

Honorable Barbara K. Cegavske  
Secretary of State  
State of Nevada  
State Capitol Complex  
Carson City, NV 89710

Attn: Mark Wlaschin, Deputy Secretary for Elections

Dear Mark:

On March 23, 2021 the Accuracy Certification Board, duly appointed by me to serve for the April 6, 2021 Boulder City Primary Election, certified the accuracy of the automatic tabulating equipment and programs that will be used to count the official ballots of said election. These tests were conducted in strict compliance with all applicable Nevada statutes and regulations. A description of the procedures used is attached for your records.

Therefore, in compliance with NRS 293B.135, I am hereby forwarding to you the computer program utilized in the conduct of these tests, which will subsequently be utilized to tabulate all official ballots cast in the April 6, 2021 Boulder City Primary Election.

If you need any additional information, please let me know.

Sincerely,

Joseph P. Gloria  
Registrar of Voters

Joseph Paul Gloria, Registrar of Voters  
Lorena Portillo, Assistant Registrar of Voters

March 23, 2021

We, the undersigned members of the Accuracy Certification Board for the April 6, 2021 Boulder City Primary Election, do hereby certify that the automatic tabulating equipment and programs for said election were tested for the following conditions and correctly counted the votes cast for all candidates in all offices and precincts.

1. In accordance with NRS 293B.155 (1), a pre audited group of logic and accuracy test ballots was so marked as to record a predetermined number of valid votes for each candidate and included for the office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment and programs to reject those votes; additionally, in accordance with Nevada Election Regulation 293B.080 for the type of ballot used in the county, the test deck contained not less than the same number of ballots as there are valid voting positions for an office; and allowed for the testing of each precinct, including the preparation of a cumulative report of the total votes cast for each voting position and a total count of the number of precincts.
2. In accordance with NRS 293B.385 (2), the Board verified that:
  - (a) Any invalid voting of a ballot will cause it to be rejected;
  - (b) Votes can be counted for each candidate and proposition;
  - (c) Any overvote for an office or proposition will cause a rejection of the vote for that office or proposition.
  - (d) When multiple votes may be cast, the maximum number of votes permitted a voter cannot be exceeded without rejecting the vote for that selection, but any undervote will be counted;
  - (e) Neither a voter's omission to vote nor his irregular vote on any particular office or proposition on the ballot will prevent the counting of his vote as to any other office or proposition on the ballot.

MARILYN KIRKPATRICK, Chair • JAMES B. GIBSON, Vice Chair  
JUSTIN C. JONES • WILLIAM MCCURDY II • ROSS MILLER • MICHAEL NAFT • TICK SEGERBLOM  
YOLANDA T. KING, County Manager

3. The Board has verified that the computer or counting device was tested to determine how the system responds to:
- (a) Header cards that are upside down;
  - (b) Header cards that are reversed;
  - (c) Ballots that are upside down;
  - (d) Ballots that are reversed;
4. In accordance with NRS 293B.155 (2), if any errors were detected the cause was ascertained and corrected and an errorless count was made before the automatic tabulating equipment and programs were approved.

Further, in compliance with NRS 293B.155 (3), all reports, tables, programs and test materials were sealed in an appropriate container and identifying marks placed thereon. Attached is a description of the test design and execution.

April 5, 2021

We, the undersigned members of the Accuracy Certification Board for the April 6, 2021 Boulder City Primary Election, do hereby certify that the automatic tabulating equipment and programs for said election were tested for the following conditions and correctly counted the votes cast for all candidates in all offices and precincts.

1. In accordance with NRS 293B.155 (1), a pre audited group of logic and accuracy test ballots was so marked as to record a predetermined number of valid votes for each candidate and included for the office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment and programs to reject those votes; additionally, in accordance with Nevada Election Regulation 293B.080 for the type of ballot used in the county, the test deck contained not less than the same number of ballots as there are valid voting positions for an office; and allowed for the testing of each precinct, including the preparation of a cumulative report of the total votes cast for each voting position and a total count of the number of precincts.
2. In accordance with NRS 293B.385 (2), the Board verified that:
  - (a) Any invalid voting of a ballot will cause it to be rejected;
  - (b) Votes can be counted for each candidate and proposition;
  - (c) Any overvote for an office or proposition will cause a rejection of the vote for that office or proposition.
  - (d) When multiple votes may be cast, the maximum number of votes permitted a voter cannot be exceeded without rejecting the vote for that selection, but any undervote will be counted;
  - (e) Neither a voter's omission to vote nor his irregular vote on any particular office or proposition on the ballot will prevent the counting of his vote as to any other office or proposition on the ballot.

3. The Board has verified that the computer or counting device was tested to determine how the system responds to:
- (a) Header cards that are upside down;
  - (b) Header cards that are reversed;
  - (c) Ballots that are upside down;
  - (d) Ballots that are reversed;
4. In accordance with NRS 293B.155 (2), if any errors were detected the cause was ascertained and corrected and an errorless count was made before the automatic tabulating equipment and programs were approved.

Further, in compliance with NRS 293B.155 (3), all reports, tables, programs and test materials were sealed in an appropriate container and identifying marks placed thereon. Attached is a description of the test design and execution.

## Post-Election Audit

### 2021 Primary Municipal Elections Audit of Voter Verifiable Paper Trail Printers

In accordance with Chapter 293B of the Nevada Administrative Code, an audit was conducted of 20 randomly selected Edge touchscreen voting machines and the voter verifiable paper trail printer that was used with each machine. The audit was conducted as follows:

- a. For each machine selected, the voters' selections that were printed on the paper tape were manually tabulated by a panel of two people.
- b. The electronically recorded results for each machine were independently tabulated using the election tabulation software.
- c. The results were compared.

The results of the audit showed that 100% of the time, the electronically recorded results exactly matched the selections printed on the paper tape.

The numbers of the randomly selected machines were:

13892	13907	13860	13873	13882
13893	13908	13861	13876	13886
13895	13909	13863	13878	13888
13906	13858	13865	13879	13890

## Post-Election Audit

### 2021 Primary Municipal Elections Audit of Voting Machine Firmware and Operating Systems

In accordance with Chapter 293B of the Nevada Administrative Code, an audit was conducted of 20 randomly selected ICX touchscreen voting machines used on Election Day or during the early voting period. The audit was conducted as follows:

- a. For each machine selected, the digital signature of the ICX firmware was verified against the hash code values published by the National Institute of Science and Technology (NIST) on the National Software Reference Library (NSRL).
- b. The results were compared.

The results of the audit showed that 100% of the time, the voting machine firmware hash code values matched the hash code values registered on the National Software Reference Library.

The numbers of the randomly selected machines were:

13892	13903	13858	13864	13880
13896	13904	13860	13865	13887
13901	13907	13861	13868	13889
13902	13910	13863	13875	13890
