RESULTS OF CANVASS OF THE GENERAL ELECTION IN THE CITY OF BOULDER CITY NOVEMBER 8, 2022

The results of the November 8, 2022 General Election were canvassed comparing the computer printout of ballots counted and the results thereof with the official ballot statements for the 6 precincts used in the election.

There was 1 discrepancy in the 8,282 ballots cast in the 6 precincts, however, there were no tabulation errors in the 6 precincts, and the foregoing discrepancy would not alter the outcome of any race in this General Election.

Fifty-five provisional ballots were cast during the election, 44 were verified and counted. Eleven persons were not registered to vote and their provisional ballots were not counted.

Audits were performed according to 293B on the hash code of our ICX voting machines and the VVPAT rolls for 2% of all machines used in the election. No discrepancies were identified. The accuracy certification board also certified the functionality of our tabulation system, to include our mail readers, ICX voting machines, Agilis mail ballot processing machine, and tabulation system. All systems were found to be 100% accurate in the tabulation of votes and processing of mail ballots. The tests were performed before the start of early voting, the day before Election Day, and a post-election test the day after the election.

Therefore, as the duly appointed Registrar of Voters of Clark County, Nevada, I do hereby approve the canvassed results of the General Election for certification.

Joseph P. Gloria
Registrar of Voters,
Clark County, NV

22 General Election

UNDER/OVER

Voters voted on wrong precinct ballot (same ballot style) even though they changed their address on time, they still were generated the incorrect precinct ballot.

Ballot barcodes were misread by Agilis due to a smudge or crease on the serial number bar code.

Voters updated their record on NOVA then used EASE the same day, there wasn't enough time for the voter's precinct to update in our system, therefore they voted on the incorrect precinct ballot.

TOTAL		2346	2346	0	

Fleeing Voters: (No Discrepancies)	We determined most of these are indeed voters who checked in but did not vote.
Reactivated Card Improperly/Extra Vote Cast: (No Discrepancies)	There were several VVPAT printer errors; in some cases where the ICX had an error message after a voter cast a ballot, the voter would think the vote did not process. If the Team Leader did not do the proper procedures of checking the status of the voters card in order to determine if the vote was cast, then there may have been an extra vote cast.
