

PUBLIC MEMORIALS AND MONUMENTS

APPLICATION FORM

Please review the Public Memorials and Monuments Policy prior to completing this application. Criteria for large memorials is outlined in section 9 of the policy. Memorials must meet those criteria. Two important criteria are listed below.

Subject: The subject of a large memorial must demonstrate a high level of significance by recognizing a person or group that has provided an outstanding contribution to the cultural, political or social development of the City of Boulder City, the State of Nevada, the United States of America, or the international community; or commemorates a site or event that is historically or culturally significant and/or represents an important and unique city or civic anniversary.

Location:

- The proposed site/location is consistent with and does not interfere with the city's Master Plan, or, if applicable, the master plan for the site. The proposed location will not compromise the aesthetic integrity or interfere with the unique, cultural or historic character of the area.
- The applicant must demonstrate why the selected site is appropriate and provide sufficient justification why the memorial should be placed in that location. Where appropriate, preference will be given to co-location of new memorials within a site of common interest.
- Consideration will be given to existing uses of the proposed location, with a goal of preventing the memorial from disrupting appropriate public use of city facilities.
- At the city's sole discretion, a memorial may be relocated at the city's expense to another location.
