We are pleased to present the residents of Boulder City with a Financial Summary of the three (3) enterprise fund annual budgets for Fiscal Year 2025-2026. The budgets for the Utility Fund (each of the four utilities that make up the Utility Fund are shown individually for convenience), the Municipal Airport, and the City Cemetery reflect the priorities of the City Council and respond to the fiscal challenges of the various enterprise funds. Some may find the annual budget information to be technical and complex. In this easy-to-read executive summary, residents can view the next fiscal year’s budget highlights for each enterprise fund in a more engaging format.

We hope you enjoy the budget summary and share our excitement about the future of Boulder City. We are happy to report that we have a balanced budget and have set a fiscally stable course for our community.

Central Services	\$1,988,898
Administration	\$1,880,069
<b>TOTAL EXPENSES</b>	<b>\$5,158,397</b>

**Note: This budget is funded via the different utilities Interfund expense**

City Code requires that the City maintain an Emergency Capital Reserve fund for all Utility funds. The purpose of the Emergency Capital Reserve fund is to cover infrastructure failures (i.e., water main break, substation transformer failure, etc.) or other natural disasters that impact the City.

City Code also establishes a Rate Stabilization account to guard against unplanned or unusually high wholesale rate increases.

The Utility Admin Fund is the holding entity for the four utilities. Below is the required and current balance of the Emergency Capital Reserve account and Rate Stabilization account for the four Utilities:

	Required	Current
<b>Rate Stabilization</b>	\$3.0M	\$3.0M
<b>Emergency Capital</b>	\$5.0M	\$5.0M

### Interfund Reimbursement

Interfund Reimbursements — Partial reimbursement for services provided by the General Fund to the Boulder City Enterprise Funds (\$1,537,500).

## Electric Division

The Electric Division provides electrical energy services to its customers within the State of Nevada certificated area (the original townsite established in 1931). The Division is responsible for the purchase of electricity from multiple sources, with the largest supplier being Hoover Dam. The Division is also responsible for maintaining and upgrading the distribution system throughout the service territory. As an enterprise fund, it is self-sustaining, generating its operating revenues from its customers.
