

See BC's 2025 Water Quality Consumer Confidence Report

Boulder City believes it is essential to provide all the facts about Southern Nevada's drinking water to our customers. The Water Quality Consumer Confidence Report is an annual water quality report that includes test results, a source water analysis, an overview of the treatment process and other valuable information relating to the quality of our municipal water supply. The report is published in accordance with the Federal Safe Drinking Water Act which establishes drinking water standards and requires us to provide water quality information to customers. Please visit www.bcnv.org/WQCCR to view the report and learn more about your drinking water.
