## Air Conditioner Rebate Program Eligibility Requirements

The Air Conditioner Rebate Program is available to all Boulder City residential electric customers with existing central air conditioning and heat pump systems. The following eligibility requirements apply:

1. To be eligible for a rebate, the system must be a new central installation that replaces\* an existing central air conditioner, heat pump, Gas Pack heating and cooling units in an existing home in the Boulder City electric service territory.
2. The program only applies to central air conditioning, heat pump, and ductless split systems. Window or single-room AC units are ineligible to receive incentives.
3. AC units require installation by a contractor.
4. Installed HVAC units must be a minimum Seasonal Energy Efficiency Ratio (SEER) rating of 14 and must be replacing a unit with a SEER of less than 14.
5. Rebates in the amount of \$50.00 per ton for mobile homes only with a SEER rating of 13.0 to 13.9.
6. A completed rebate application form must be submitted within 60 days of the installation date.
7. Residential purchasers of qualifying equipment may be subject to an on-site inspection by a Boulder City representative to verify equipment is properly installed and operational.
8. Submit all documents described in the Submittal Checklist below.

\* Replacement is defined as the replacement of the electric-driven cooling system (i.e., condenser, blower, coils, etc.) or cooling or heating system in the case of heat pumps.
