

PROPOSED LOCAL MITIGATION AND ENFORCEMENT PLAN

Approved by the Clark County Board of County Commissioners

April 20, 2021

Overview:

The State of Nevada remains under an emergency as declared by the Governor. This declaration allows the state and its partners to respond to the global pandemic, as well as to seek federal resources and reimbursement for actions taken to protect the health of the residents and visitors of our state. This statewide emergency will remain in place for the foreseeable future, which will allow state and local partners to collaborate in addressing the challenges presented by this pandemic.

On February 14, 2021, Governor Sisolak unveiled Nevada's Roadmap to Recovery Transition Plan which provides his plan to reduce current statewide COVID-19 mitigation measures and transition certain mitigation measures to the local authority. This will occur in a phased approach, with the transition to local authority happening on May 1, 2021, at the earliest.

While it is the Governor's intent for this delegation of authority to remain in place throughout the remainder of the emergency declaration, factors such as increased viral spread, the unknown nature of various variants, and otherwise could result in increased baseline mitigation measures, or the State resuming control of some or all mitigation measures.

In order to assume delegation of authority regarding specific local mitigation, Clark County has developed a Local Mitigation and Enforcement Plan that meets the requirements as outlined in Nevada's Roadmap to Recovery Transition Plan. Clark County is proposing that ALL "PROPOSED LOCAL MEASURES" changes are effective May 1, 2021.

The Clark County Local Mitigation and Enforcement Plan continues to highlight our regional approach of following our health and medical experts at the Southern Nevada Health District (SNHD). The Clark County plan ensures that our region continues to stay vigilant in protecting the health of our residents and visitors to include following common-sense risk reduction measures and continuous comprehensive monitoring/analysis of disease burden factors such as hospital status, test positivity rate, community testing numbers, and COVID cases per week while prioritizing efforts for herd immunity by incentivizing vaccinations. While it is Governor Sisolak's goal of having every county reopen to 100% on June 1, Clark County is cautiously optimistic we will meet this goal if Southern Nevadans continue with current robust vaccination efforts.

GAMING FLOORS:

Capacity and mitigation measures for gaming areas will **NOT** transition to local control after May 1 and **will remain under the authority of the Nevada Gaming Control Board**. Uniform, statewide mitigation measures will continue to apply to gaming areas.

After May 1, other businesses located within a gaming property will be subject to the applicable county’s capacity and other mitigation measures applicable to that type of business, per the approved Local Mitigation and Enforcement Plan. For example, a retail clothing store located within a gaming property shall follow the mitigation measures for retail stores that are set forth in the county’s plan.

ARCADES, RACETRACKS, BOWLING ALLEYS, MINI GOLF, POOL HALLS, AMUSEMENT & THEME PARKS, and SIMILAR ACTIVITIES:

These venues have many high-touch surfaces and are common venues for group gatherings, or gatherings that would promote food/drink consumption or other activities that would require mask removal. A responsible and staggered approach is strongly recommended by public health officials.

YOUTH AND ADULT RECREATIONAL SPORTS:

Current state guidance does NOT govern professional sports leagues or college division level sports. The NIAA retains authority over when high school sports will resume and the guidelines under which competition will resume, consistent with Section 7 of Directive 028 and Sections 5 and 7 of Directive 034.

| | CURRENT STATEWIDE STANDARDS | PROPOSED LOCAL MEASURES |
|--------------------|--|--|
| TOURNAMENTS | <p>Tournaments for permissible sports (pursuant to Directive 034) allowed to resume no earlier than March 15.</p> <p>Tournaments must be approved by applicable State authorities prior to competitions through submission of a Preparedness & Safety Plan.</p> | <p>Leagues and tournaments for non-contact type sports such as bowling, darts, billiards, and other similar sports that occur indoors do not need to submit a Preparedness & Safety Plan. Any full contact league or tournament that resumes after May 1 will need to submit a Preparedness and Safety Plan as described in Section 11 of Directive 34 to the Clark County Recovery Enforcement Workgroup. The plan can be submitted to:</p> <p>CCROEnforcementWorkgroup@ClarkCounty.NV.gov</p> <p>NON-CONTACT & MINIMAL CONTACT SPORTS: Minimal contact and non-contact sports are allowed to hold practices, games, competitions and tournaments, indoors and outdoors, if social distancing (if applicable) and all requirements can be met.</p> |

Guidance for Local Planning: For reference, previous State Directives related to youth and adult recreational sports did not apply to sporting events regulated by professional sports leagues, the Nevada State Athletic Commission (NSAC), or the National Collegiate Athletic Association (NCAA). With respect to high school sports, the Nevada Interscholastic Activities Association (NIAA) always retained authority over schedules and the guidelines under which competition could take place.

State Emergency Directives classify which sports are full-, minimal-, and non-contact with corresponding restrictions applied to those classifications. The transition to local authority will allow each county to revisit the classifications and rules for the different types of sports. ***SEE: "[Nevada Guidance for Adult & Youth Sports](#)" for all current mitigation measures

GENERAL STATEMENTS:

- If a business sector or activity is not specifically cited in this plan, capacity restrictions and social distancing requirements as noted in the “Capacity and Social Distancing” section of this Plan applies.
- Businesses are required to manage the social distancing requirements. New signage is not required to be replaced or updated to reflect updated social distancing requirements.
- Large Gatherings and events with prior approval from the Nevada Department of Business & Industry (B&I) are approved plans under the local authority.
- Large Gatherings and events approved by the Nevada Department of Business & Industry (B&I) with stricter capacity and social distancing requirements may request approval to comply with the capacity and social distancing requirements as outlined in the “Capacity and Social Distancing” section in this plan. Please submit requests to the Clark County Recovery Enforcement Workgroup. Requests may be submitted starting April 26, 2021.

PROPOSED LOCAL MITIGATION AND ENFORCEMENT PLAN

Clark County Recovery Organization Large Gathering Venue COVID-19 Preparedness & Safety Plan

The health and safety of Nevada’s workers, residents, and visitors remain the top priority. By completing this Large Gathering Venue COVID-19 Preparedness & Safety Plan Certification Form (“Large Gathering Certification”), event organizers and venues are **certifying under penalty of perjury** that their event, gathering, meeting, convention, or tradeshow will adhere to all required health protocols and provide for the safest environment possible.

Failure to complete all requested information and certify that all required mitigation measures will be followed may result in the event being delayed, disapproved, or closed. Local jurisdictions will have the primary responsibility for enforcing compliance with the requirements outlined in this guidance and the certification form.

A venue or other facility may adopt additional safety measures that extend beyond the requirements below. Under each section in the guide below, recommendations for additional mitigation measures are provided.

It is the responsibility of the event organizer to obtain any permits required by the local jurisdiction.

PROPOSED LOCAL MITIGATION AND ENFORCEMENT PLAN

Large gatherings are groups of more than 250 individuals gathering outside in the same general area or indoors within the same room, arena, theater, or other such venue. While the community recovers from COVID-19, event organizers must consider the following:

1. Large Gatherings with less than 20,000 people can be approved at 3 feet social distancing with up to 80% capacity if:
 - a. the venue is outdoors or if indoors and the area is well ventilated
 - b. 50% of the community has completed their 1st dose of a vaccination for COVID-19.
2. Capacity can increase to 100% fire code occupancy, with no social distancing with less than 20,000 attendees if:
 - a. all attendees have either completed their vaccination for COVID-19 at least 14 days prior to the event or are tested using a PCR test 24-48 hours prior to the event and have evidence of a negative test result.
 - b. the venue is outdoors or if indoors the area is well ventilated.
 - c. 50% of the community has completed their 1st dose of a vaccination for COVID-19
3. When 60% of the eligible community has been vaccinated, capacity at venues can increase to 100% with no social distancing. At that time, event organizers will no longer need to submit large gathering plans. Nevertheless, it is strongly encouraged that all event organizers develop mitigation measures as identified in the checklist below. These measures may need to be implemented in the unlikely event that conditions in the community worsen.
4. Until social distancing is removed, all concerts (such as live music or DJ entertainment), sporting events (such as professional hockey, baseball, football, auto racing etc.) or other such events will have assigned seating. Fairs, conventions, and other similar gatherings can have general admission.
5. Plans for events with general admission that are outdoors and events greater than 20,000 attendees can be submitted for review by SNHD on a case by case basis but may not be recommended to occur because of the current or projected conditions within the community.
 - a. Definitions;
 - i. Standing room only tickets are tickets sold without a designated seat.
 - ii. General admission are tickets sold with a designated seat that is not assigned.
6. At the conclusion of the event, the event organizer will inform all attendees that the Health District recommends that attendees be tested for COVID-19 at least five days after returning home.
7. The Health District may require the event organizer to notify all attendees if any outbreaks or cases are identified among event participants or others associated with the event.

PROPOSED LOCAL MITIGATION AND ENFORCEMENT PLAN

8. If conditions worsen prior to the event, the Health District may require additional mitigation measures for the event in an effort to control further deterioration of COVID conditions in the community.

ENFORCEMENT MEASURES

Overview of the Clark County Recovery Organization Enforcement Workgroup

The Clark County Recovery Organization Enforcement Workgroup continues to meet weekly and as needed to discuss emerging issues, clarify directive sections, distribute new sources of data coming from OSHA and SNHD, and ensure all parts of the region are consistent in the application of the directives. Enforcement Workgroup members include staff from the following agencies: the Gaming Control Board, the Division of Industrial Relations, the Nevada State Athletic Commission, the Southern Nevada Health District, Boulder City, the City of Las Vegas, Henderson, Mesquite, the City of North Las Vegas, Unincorporated Clark County, the Attorney General’s Office, and the Las Vegas Metropolitan Police Department. Enforcement efforts will continue as long as mask mandates, capacity restrictions and social distancing requirements are in place.

As the Clark County Region is maximizing resources to identify and eliminate non-compliance to the Governor’s Directive, we will continue to analyze possible sources of non-compliance such as big box stores or hookah lounges. As trends are identified, we will continue to address issues via enforcement action up to license suspension. Common violations include businesses not enforcing the directive for customers to wear face coverings, businesses not enforcing the directive for employees to wear face coverings, businesses not enforcing the directive in respect to social distancing (if applicable), and businesses operating over capacity.

The Enforcement Workgroup anticipates we can continue to improve our business compliance rates via boots on ground approach to methodically check businesses. Additionally, the jurisdictions use the data provided by OSHA and the SNHD to complete targeted inspections based on industry types linked to high transmission rates, zip codes with the highest transmission rates, and zip codes with the most complaints.

By utilizing a random, complaint-based, and data-driven hybrid inspection model, the region is able to efficiently address constituent concerns and observations while having the ability to pinpoint industry specific issues. Each agency’s goal is to address complaints within 24 hours and respond to complainants within another 24 hours. Also important is the fact that inspections are conducted 7 days per week, which is invaluable to eliminating blind spots.

Should instances of non-compliance be observed by agents, enforcement action is applied. Possible actions include notice of violation, notice of non-compliance, misdemeanor citation, 36-hour suspension, and 14-day suspension.

We will continue to evaluate the number of locations visited, emergency suspensions issued, citation issued, notices of civil penalty issued, notices of violation issued, and complaints received to determine when and where to apply resources. Further, the local jurisdictions, the SNHD, and the State agencies will continue to work together as a region to address non-compliance in a time-efficient and consistent manner.

The following metrics are applied to measure success and drive decisions:

- Mesquite Quota = 56 per week
- City of Las Vegas Quota = 1,946 per week
- Unincorporated Clark County Quota = 2,254 per week
- Boulder City Quota = 56 per week
- North Las Vegas Quota = 420 per week
- Henderson Quota = 581 per week
- Total Regional Quota = 5,313 per week

Overview of the number observations conducted by county enforcement officials.

Clark County (including Boulder City, Mesquite, City of North Las Vegas, City of Henderson, and Unincorporated Clark County only)- This data does not include actions taken by the SNHD or State agencies

List of data since the beginning of the emergency enforcement actions started on 02/23/2020:

Total for Region as of 02/24/2021:

- Locations Visited: 219,932
- Emergency Suspensions Issued: 91
- Misdemeanor Citations Issued: 22
- Notice of Civil Penalty Issued: 137
- Notice of Violation Issued: 469
- Verbal Warning Issued: 1850
- Courtesy Notices Issued: 597
- Correction Notices Issued: 766
- Complaints: 9468
- Compliance Rate: 98.21%

Overview of compliance rates during county observations.

Overall, the Region has found businesses to be in compliance. During inspections, Agents found 216,000 locations to be in compliance and 3932 locations in which a compliance issue was noted. This represents a 98.21% compliance rate for the Clark County Region.

Overview of the number of violations and enforcement actions taken by local jurisdictions.

- 0.04% of inspections have resulted in an emergency suspension.
- 0.01% of inspections have resulted in a misdemeanor citation.
- 0.06% of inspections have resulted in a notice of civil penalty.
- 0.21% of inspections have resulted in a notice of violation.
- 0.84% of inspections have resulted in a verbal warning.
- 0.27% of inspections have resulted in a courtesy notice.
- 0.35% of inspections have resulted in a correction notice.
- Out of 219,932 inspections, only 1.79% resulted in an enforcement action.

MONITORING

Clark County, with support and planning services of City of Las Vegas, City of North Las Vegas, City of Henderson, Boulder City, City of Mesquite, and the Southern Nevada Health District, will continue monitoring and reporting the critical statewide metrics as presented in the [SOUTHERN NEVADA REGIONAL RECOVERY ORGANIZATION ACTION PLANS](#).

The Critical Statewide Metrics are:

- Average Number of tests per day per 100,000
- Case Rate per 100,000 last 30 days
- Case Rate (Per 100,000) AND testing positivity
- Hospital Capacity
- Access to Personal Protective Equipment
- Testing Capacity
- Case Investigation and Contact Tracing
- Protection of Vulnerable Populations
- Enforcement

PUBLIC INFORMATION

The SNHD Coronavirus webpage is widely followed in our community and beyond, it provides guidance for both the public and businesses on how to prevent the spread of this disease at home, public places, and the workplace. SNHD developed an interactive dashboard available to the public that shows daily updated reports of cases, hospitalizations, and mortality numbers as well as trends up to the zip code level. The Health District website includes a community calendar where residents and visitors can find available locations for testing and vaccinations.

Below is a table updated and communicated to the community on weekly vaccination sites
