COVID-19 Testing Available for Staff

The number of COVID cases is on the rise in Clark County, driven in part by the Delta variant, which is far more contagious. The CDC estimates that 97-percent of people now hospitalized with severe COVID illness have not been vaccinated, and studies have proven that even if you get COVID after vaccination, the symptoms are much less severe. The Boulder City Fire Department is offering testing for City of Boulder City employees and their immediate family members only. If you feel you may have been exposed to the virus or have symptoms (fever or chills, fatigue, cough, shortness of breath, loss of taste or smell) you can get tested at the BC Fire Department (1101 Elm Street) Monday-Thursday from 8:00 a.m.-5:30 p.m. If you need a test Friday/Saturday/Sunday, ring the doorbell and wait for a firefighter to respond.
